HOMiDO

Virtual Reality Headset

Made for 4” to 5.5” Smartphones

User manual

English

GET STARTED

1, Download an application (APP)

Iphone / Android : Download “Homido Center” on Google Play or on the App Store.
Once you have installed Homido Center, you will have all the Homido compatible apps listed in one place.

2, Set the Lenses

- Choose the right lens holder (silicon cup):
Small: shortsightedness setting
Medium: normal setting
Big: farsightedness setting

- Insert the lenses in the lens holders.

- Clip the lens holders in the headset.

3, Launch the Smartphone

On your Smartphone : Launch a movie, or an APP

4, Insert the smartphone into the headset

- open the clip with one hand

- insert the smartphone with the other hand

- position your smartphone exactly in the middle. Not too high, not too low, not leaning on one side.

5, Adjust the mask on your head

- Eye-to-lens Distance (ELD) : if you feel too close to the lenses, you can adjust the distance with the two side wheels. Turn both wheels at the same time.

- InterPupillary Distance (IPD) : use the top wheel to adjust IPD and get the image “in focus”.

- Use the Extra strap if to make sure the weight is distributed all over you head.

HOW TO ENJOY HOMIDO ?

1, Watch Movies

- watch a 3D movie.
It must be in Side-By-Side (SBS) format. You can download 3D SBS movies on the internet, and watch them with your favorite smartphone video player.
Or you can watch streamed videos, ie: on Youtube, search “side by side 3D”

- watch any movie :
Android : with “Side-By-Side Video Player”. Available on Google Play.
Iphone : with Homido Player. Available on the App store.

- watch 360° videos :
Iphone : with Homido Player.
Android : with “Kolor Eyes – 360° video player”, or “VR player”.
You can watch your own 360° videos on your smartphone, or download 360° videos from the internet.

2, Play Games

Android/Iphone : download Homido Center. Available on Google Play / App Store.
You will find a selection of compatible games in the Homido Center app. You will be able to install the games and then to keep them all stored in one place on your smartphone.

3, Augmented reality and much more…
